4. FIRST AID MEASURES

4.1 DESCRIPTION OF FIRST AID MEASURES

Remove exposed person to fresh air if exposure to fumes suspected. Keep warm and at rest. If unconscious, place in recovery position. Loosen clothing and maintain open airway. If breathing irregular/arrested, provide artificial respiration/oxygen by trained personnel. Obtain medical attention.

Ingestion : Wash out mouth with water. Give sips of water/milk only if conscious. Keep warm and at rest. Do not induce vomiting. If vomiting occurs, keep head low to prevent entry to lungs. If unconscious, place

in recovery position. Loosen clothing and maintain open airway. If breathing irregular/arrested, provide artificial respiration/oxygen by trained personnel. Obtain urgent medical attention.

Skin Contact : Remove contaminated clothing/shoes. Wash contaminated skin thoroughly with soap and water. Continue rinsing for 10 min. Seek medical attention for chemical burns. Launder contaminated clothing before re-use.

Eye Contact : Immediately flush the eye with plenty of water for at least 15 minutes, with frequent lifting of upper and lower eyelids. Seek immediate medical attention.

4.2 Symptoms and Adverse Health Effects : Sec 11 for health effects and symptoms.

5. FIRE FIGHTING MEASURES

5.1 Suitable Extinguishing Media : Will not support combustion; select extinguishing agent appropriate to other materials involved (powder, foam, dry chemical, CO₂ or water spray/fog)

5.2 Special Hazards of Product : Fumes containing carbon dioxide, carbon monoxide, amine vapours and oxides of nitrogen may be formed in large fires. May make floor very slippery.

5.3 Advice for Fire-Fighting : Protective Equipment: Wear full protective clothing and self-contained breathing apparatus with full face-piece in positive pressure mode.
Special Precautions: Toxic to aquatic organisms; contain fire water and prevent entry to drains/watercourses (sec 13).

6. ACCIDENTAL RELEASE MEASURES

Environmental Precautions : Very toxic to aquatic organisms. Prevent spillage/runoff from entering drains/sewers/watercourses/confined areas. Inform authorities if entry suspected or if soil/vegetation contaminated.

Spillages : Large Spill: Stop escape of material if without risk. Remove containers from spill area. Contain and collect spillage using non-combustible inert absorbent (sand/earth/vermiculite/diatomaceous earth) for disposal (sec 13). Use licenced waste disposal contractor. Wash area with plenty of water. Small spills may be diluted with water and mopped up.

Personal Precautions : Use appropriate personal protective clothing (sec 8). Slip risk: do not walk through or touch spilt material. Use respirator if ventilation inadequate.

6.4 REFERENCE TO OTHER SECTIONS

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

7. HANDLING AND STORAGE

Handling : Avoid contact with eyes, skin and clothing (sec 8).

Storage : Store between 0-40°C. Keep containers tightly closed when not in use. Label containers according to hazard classification. Use appropriate secondary containment to avoid environmental contamination.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Skin Protection : Wear impervious PVC or rubber gloves/gauntlets, protective overalls, impermeable safety footwear and industrial safety helmet

Eye Protection : Wear close fitting goggles or full face visor/ shield to avoid splash injury.

Hygiene measures : Ensure eyewash stations and showers close to work locations. Wash hands, arms, face before eating, smoking or using the lavatory. Launder contaminated clothing before re-use.
